The Pace Library Catalog tells you what books Pace owns in all library locations and ConnectNY allows you to order books from several academic libraries in New York State.

Full Text Articles - Many of the Pace databases include the full-text of articles you need; however, when you are in a database and you do not see the link for full text, follow these steps:

1.) Check Google Scholar: https://scholar.google.com/ by copying and pasting the article title and journal title into the search box. Look for PDF’s of the article. If you hit a paywall do not EVER pay for an article.
