Pace University Graduate Library Services
PSY674 Research Seminar

Library Homepage: http://www.pace.edu/library
Research Guide: http://libguides.pace.edu/mentalhealthcounseling

Your Personal Librarian: Michelle Lang, Ass’t Univ. Librarian for Graduate Services
Contact me: mlang@pace.edu or (212)346-1778 or Mortola Library 2nd Floor
Best Library Databases:

1. JSTOR 1860-present. Full-text articles.
4. PsycArticles 1894-present. Full-text articles.
5. PsycINFO 1887-present. Abstracts only. Extensive coverage.

Library Catalog and ConnectNY – http://www.pace.edu/library/find-resources/library-catalog The Pace Library Catalog tells you what books Pace owns in all library locations and ConnectNY allows you to order books from several academic libraries in New York State.

Full Text Articles – Many of the Pace Library databases include the full-text of articles you need; however, when you are in a database and you do not see the link for full text, follow these steps: 1) copy the journal title (not the article title) and paste it into the library’s Journal Title Tab (go to the homepage and click on Journal Title tab button). See if it pops up in another database and if it does, search that one for the full-text.
2) Check Google Scholar: https://scholar.google.com/ by copying and pasting the article title and journal title into the search box. Look for PDF’s of the article. If you hit a paywall do not EVER pay for an article.
